About Me

Experienced and versatile full-stack developer with a passion for creating innovative and user-friendly web site. With a solid background in both front-end and back-end development, I thrive in fast-paced environments where I can leverage my technical expertise to deliver high-quality solutions.

PROJECTS

1. Online E-commerce Website (PHP, MySQL, HTML, CSS):
 - Developed a fully functional e-commerce website using PHP for backend functionality and MySQL for database management.
 - Implemented user registration, product listing, shopping cart, and order processing features.
 - Utilized HTML, CSS, and Bootstrap to design a responsive and visually appealing user interface.
2. JavaScript Game (JavaScript, HTML, CSS):
 - Created a simple game using JavaScript, HTML, and CSS.
3. Database Management System (Python, SQL):
 - Developed a command-line application using Python for managing a small-scale database system.
